NORWOOD, COLORADO 81423
(970) 327-4288 • (970) 327-0451 FAX

The construction of the “**Raw Water System**” will provide chlorine-free water for lawns, trees, flowers and vegetable gardens. At build out, the system would have service lines throughout the Town of Norwood with a raw water tap installed at the property line. Access to a “**Raw Water System**” will provide an economical and sustainable option for the Town residents to water their food gardens, lawns and landscaping, which should enhance the livability of the Town and potentially increase property values. The “**Raw Water System**” may promote future area economic growth and development. The Construction of the “**Raw Water System**” will help conserve treated water as well as conserve energy as a result of reducing water treatment in the summer months for irrigation.

*The Town of Norwood and Norwood Water Commission are continuing to refine the details of constructing a “**Raw Water System**” which will provide Town of Norwood residents with untreated irrigation water from the Gurley Reservoir system. In order to plan and fund the project, customers must purchase taps. This additional survey will provide valuable information to help plan for the phased build out of the system.*

The following major changes have been made to the Raw Water System program based on initial survey results: Tap Fee has been lowered to \$2,500, the cost of water has been lowered to \$1.50 per 1,000 gallons.

1. Please provide your name and physical address _____

2. Will you purchase a tap for \$2,500 ___ YES ___ NO
3. If you answered yes to question # 2, what would be your preferred means of payment?
_____ Cash _____ Check _____ Credit Card
4. If a financing plan were available, would you consider purchasing a tap at \$1,000 Down Payment and \$250/month for six months? _____ YES _____ NO

Comment:

Please return completed survey to Town Hall no later than May 31st, 2016. Thank you!!!!
