New Business:

Old Business:

Operational/Administrative Report:

Lippert states he had not received the ecoli results and he didn't receive the DMR results until the previous day. They didn't receive a bottle for the samples they take for the quarterly dissolved solids, so they used a different bottle which wasn't labeled correctly. Therefore the sample didn't get processed. They resampled, but if the health department doesn't accept it there will be a monitoring violation. Two stainless steel brackets on one of the aerators cracked. Lippert did order one and it is being shipped but it will cost \$1000. He will have Fournery rebuild the other one. Now that the ground has thawed, they will be putting the 60 ft of pipe from the effluent into the Gurley ditch to try to keep from having to abide by the ammonia standards rule. Lippert attended a CIRSA meeting in which the 811 representative was at. They are getting a lot of negative feedback especially about the 811 road grading rule, so Lippert invited the representative to hold a conference in Norwood. He will let everyone know when they decide on a date. Due to the new rules put into place, we will have to update our locator, which will be a shared expense with the Water Commission.

Adjourn

Motion by John Houser to adjourn the meeting at 7:30 P.M. Bernice White seconded the **motion and it passed.**
