

## **Outside Watering Conservation Plan**

**April 10, 2019**

On a year that Norwood and the surrounding area is experiencing normal water conditions, the Norwood Water Commission strongly encourages the systems customers to use the following plan for outside watering to curtail the stress on the infrastructure and equipment; Those customers residing in the **Town** of Norwood to conduct their outside watering on **even number** calendar days and those customers residing in the **rural** to conduct their outside watering on **odd number** calendar days. The Norwood Water Commission is requesting their customers to not conduct any outside watering during the heat of the day (9 a.m. to 5 p.m.) or when the wind is blowing as a conservation measure. This plan is subject to change and will be revisited on May 8, 2019, at the regular meeting of the Norwood Water Commission.
